FATHER OF J. E. UPTON DIES AT PINCHER CREEK

The death of Thomas F. Upton occurred at Pincher Creek on Friday last, following a prolonged illness.

Mr. Upton was a highly esteemed resident and pioneer of the district, having come to Pincher Creek in the spring of 1900. He was born near Paris, Ontario, on June 21st, 1852. For some years he was postmaster at Yarrow and for many years drove the mail stage from Yarrow to Pincher Creek, winter and summer. In 1874 he married Mary Ann Bolton, who survives him. Five sons and three daughters also survive: J. F. Upton, Stratton, Ontario; J. E. Upton, Blainville, Ontario; J. E. Upton, Blainville, Ontario; Frank L. Upton, Fishburn; Walter Upton, Fishburn; C. E. Upton, Twin Butte; Mrs. J. Lucas, Pincher Creek; Mrs. J. Munn, Wetaskiwin, and Mrs. J. T. Walters, Lundbreck.

The remains were laid to rest at Pincher Creek on Sunday afternoon, the funeral being largely attended.

RAYMOND BLAKE'S WIN

AT DRUMHELLER

The heat was so intense that the winner faltered soon after the start, but he soon overcame the difficulty and went on to overtake the leaders to win with something in reserve. Blake, who came all the way from the Crow's Nest Pass to compete in the marathon, finished in good shape and was running easily at the end. He sprinted for the last hundred yards and got a big hand from the crowd when he finished by the finishing line about seventy yards in front of Jack Wahlberg, of Saskatoon.

Wahlberg, who won the Herald Christmas road race last year, was the favorite to win the Drumheller race, but the Saskatchewan athlete developed cramps in his stomach soon after the start and was never able to shake off the trouble. He ran a game race and finished on practically nothing but nerve and grit. He was a sick boy when he headed into the park some fifty yards behind the winner and he just managed to finish the event. His gameness got him a big cheer from the crowd.

The winner of the race, Raymond Blake, has competed in several distance events in the southern part of the province and has been returned a winner on each occasion. In 1925 he defeated Johnny Kerr, of Passburg, winner of the 1927 Herald Christmas road race, at Bellevue, and last year he was first in five mile events at Bellevue and Cardston and this spring he won the Cardston race again. Blake is pointing for the Herald Christmas race this year.

The greatest crowd in the history of the Dominion Day race in Drumheller lined the course throughout on Monday.

At the banquet which followed, Mayor McSwain stated that he was glad to see a lad from a sister coal field win the race, and that he hoped to see him in future years.—Drumheller Review.

GEO. RITCHIE LAID TO REST

The funeral of the late George Ritchie took place at Coleman on Friday afternoon last and was very largely attended.

Deceased was a native of Peterboro, Ontario, and is survived by one daughter, Mrs. Hall, of Coleman. His wife predeceased him some three years. He came west some twenty years ago and for a number of years was connected with the McLaren Lumber Company as a camp foreman. Later he was appointed to the position of forest ranger under the Dominion Forestry Department, with headquarters at Castle River, his territory extending from the South Fork to Waterton Park.

Being of a most genial disposition, he had made numerous friends.

FR. LACOMBE COUNCIL, K.C., HOLD IMPORTANT MEETING

The meeting of Father Lacombe Council, Knights of Columbus, held here on Sunday last, was largely attended, representatives being present from all points between Regina and Cranbrook, including some of the high officials of the continental organization. A large class of candidates presented themselves for initiation and degrees. In the evening upwards of two hundred sat to a sumptuous banquet served in the opera house by the ladies of the Catholic Women's League. Following the banquet was a programme of speeches, vocal and instrumental music, etc., with Mr. J. E. Gillis, grand knight, acting as chairman.

The convention concluded with a grand ball at the opera house on Monday evening, which was enjoyed by all who attended.

FERNIE TO HAVE FIRST AID COMPETITION

The East Kootenay Mine Safety Association has decided to stage a First Aid competition at Fernie on August 3rd, open to all persons in Western Canada, regardless of what trade or profession they follow, so long as they are not doctors or nurses. It is expected that teams from Cranbrook, Trail, Kimberley, Nelson, Calgary, Blainville, Coleman, Bellevue, Hillcrest, Michel and Fernie will compete. The St. John Ambulance Association text book, 37th edition, will be the standard for judging the work and for other events.

A handsome trophy has been donated by the Fernie Lodge of the B. P. O. E.

Similar competitions have been held in Blainville in recent years and proved most interesting.

CARD OF THANKS

Mr. J. W. Eddy, of Beaver Mines, desires most sincerely to thank all friends for kindnesses shown during the illness of his son Harvey, and for expressions of sympathy over his demise, floral and otherwise. Particularly would he thank the many friends who loaned cars for the funeral.

Mr. Eddy's home has been under quarantine since the sad event, and the ban has only now been lifted.

Pat Burns, Calgary millionaire, is the biggest central figure in one of the biggest real estate developments that has taken place in Vancouver since the war. It is learned that he has offered the municipal council of West Vancouver \$12,000 for 400 acres of what was known as the Harvey Hadden estate, a magnificent property bordering the Capilano river, 400 feet above sea level and overlooking the gorgeous sweep of Vancouver's harbor. If the council will agree to Mr. Burns' terms, the chief of which calls for a fixed assessment for 10 years, he proposes to develop a modern subdivision.—High River Times.

In eighteen years, the second largest paper plant in Newfoundland turned out 1,094,061 tons of paper. An idea of the amount may be had from the fact that at six feet wide it would stretch a distance of four million miles. It would circle the globe 160 times and could, if spread out, completely cover the globe in many layers, like the peel of an orange covers the orange.

Mrs. (Rev.) A. W. Coone writes the News from Vancouver that her husband has been very ill for the past eight weeks, and able to sit up only occasionally, and has been very poorly the past week and very weak. They appreciate the sympathy and prayers of their many friends.—Nanton News.

Miss F. Brown is spending this week with friends in Calgary.

Quite a number of local parties motored into Calgary yesterday for the Stampede.

Miss Van Brussel, of Vancouver, is spending her vacation with friends in Blainville.

A Boston man gave up golf to win a wife. Better sell his clubs, too, as a safety measure.

Chesterfield, according to Val, derives its name from the fact that it accommodates weeds.

The infant child of Corporal and Mrs. Weaver died on Monday morning, aged six days.

Max Bekeley and family, of Fernie, were visitors over the week end with friends at Hillcrest and Blainville.

Miss B. Seilon, of the Hillcrest teaching staff, left last week to spend her vacation with friends at Sydney, Nova Scotia.

The marriage of Donald Lewis to Miss Hick will take place at Lethbridge on the 17th. A number of invitations for the event have been received locally.

Local old-timers will be very interested in the announcement of the engagement of Geraldine Charlotte, daughter of Mr. and Mrs. Cecil Patterson, Laund Power, to Mr. Henry Geoffrey Macdonald, son of Dr. and Mrs. George Macdonald, formerly of Frank, but now of Edmonton, the marriage to take place in the autumn.

Ottawa authorities have decided on an airport for Fernie.

James Boutiller, of Hillcrest, has leased the Gibeau ranch near Burnis.

Men have their failings, but they don't kiss when they meet on the street.

When words fail to express a woman's contempt for a man, he enjoys a well-earned rest.

Mrs. Dowsett, formerly Miss Taber, has been engaged as teacher with the Maledon public school, commencing in September.

W. J. Burns, well-known mayor of Coleman, has resigned his post with the McGillivray Creek Coal & Coke Company, after some seventeen years with them as engineer, and has accepted a position with the East Kootenay Power Co. at Sentinel. Recently Mr. Burns was elected second vice-president of the Union of Alberta Municipalities.

To perpetuate the great forests of British Columbia and the timber industry, the Native Sons' organization has built a community hall in the center of Vancouver Island, fashioned of giant fir and cedar logs. There are larger auditoriums in Canada, but it is doubtful whether any contain as much lumber. It is estimated that its construction required more lumber than would be used in the building of 75 four-roomed cottages. More than 600 whole cedar logs are used in its walls, with rafters and girders of huge fir timber.

July Specials

WORLD HAPPENINGS
BRIEFLY TOLD

Sir Bethy Alston, British ambassador to Brazil since 1925, died suddenly in a London hotel, aged 60 years.

Sheep from the famous flocks of His Majesty King George are being imported on Vancouver Island and will be pastured in the Sooke Hills.

Two cargoes of Canadian grain have left Vancouver for Vladivostok. This is the first movement of this commodity to a western Siberian port in years. It is expected that a further cargo will go forward shortly.

London morning papers say the much-talked-of agreement between British and German film groups had been signed with involved capital amounting to approximately 50 million pounds sterling, or \$300,000,000.

Marius Polon, one of the most noted military test pilots in France, was killed instantly when his plane crashed because of a broken wing. His parachute failed him after the pilot had leaped from the plane.

A caldon of grease, which overturned and ignited in the main galley of the Hamburg-American liner "Deutschland" furnished a stirring finish to an uneventful Atlantic crossing for 380 passengers.

Expanding trade in the New Westminster area is seen in the recent shipment of a large consignment of rope from the factory at New Westminster and canned milk from the Fraser Valley to the British West Indies market.

A Chinese-British agreement has been signed providing for the training of Chinese naval cadets in Great Britain and to the furnishing to the Chinese government of a British naval mission in development of the Chinese army.

Buina's Limited, of Vernon, B.C., has started construction of its new dehydrating plant and it is expected that the factory will be completed in time to handle the coming season's crop. Machinery is already moving in.

A shipment of purchased cattle consisting of 25 head of Guernsey purchased in Wisconsin and Illinois, by D. V. Runkle, of Regina, have been placed on the Pilot Butte stock farms near Regina. The shipment is valued at \$10,000.

Has Gained Popularity

Essay Contest Teaching Toledo School Children Facts About Canada.

A Canadian essay contest in the Toledo, Ohio, schools, sponsored by Edmund G. Odette, M.P., for East Essex, has gained such popularity in that city that one of the newspapers now is carrying a daily feature entitled "Facts About Canada."

"Canada," one of the Toledo papers pointed out, "is a nation of home-owners in the farming district, 78 per cent. of the people owning their own homes."

Other facts listed from day to day, deal with Canada's natural resources, its hydro power, its fishing and its industrial enterprises.

The competition among the Toledo school children was started last fall when Mr. Odette, addressing the North Toledo improvement association, offered to pay the expenses of a trip to Ottawa for the author of the best essay on "Canada."

The proposal received such a favorable impression in Toledo, that the chamber of commerce there offered to do likewise for a second student. The object of the essay contest and the trip, is to promote a better understanding between the people of the adjoining countries.

If all oyster eggs hatched and survived, in five generations their shells would make a pile twice the size of the earth.

THE FOUNDING FILM.

Producer: "Jump!"
Actor: "But I see no mat!"
Producer: "Of course, not. This is a sounding film. We have to reproduce your thud on the pavement!"
H. 420, Florence.

W. N. U. 1798

A Pleading Incident

Deaf and Dumb Children Are Entitled To a Lecture.

This pleasing and pathetic little incident took place in Montreal recently at the largest health exhibit ever shown in Canada, when the Canadian Social Hygiene Council assisted the Montreal Federation of French Health Agencies in a financial drive.

Morning, afternoon, and evening, health lectures were given, thousands of school children being carried free on the street cars. And one day they brought all the little deaf and dumb children in Montreal.

They gathered that silent company in the big lecture hall, and placed them in little groups of fifteen or so, around lady teachers. Each teacher faced the lecturer, and the children solemnly looked at their teachers. And then the lecturer began to speak to the children, while they stood, unhearing, and watched their teachers.

He spoke only a few sentences, and stopped. And all the teachers began to move their fingers, translating the lecture. The children's eyes followed eagerly as they understood the words that were being relayed to them, their own native language that they could not understand until it was translated into motion.

Children are notably apt at lectures, but not so these youngsters. To see how they enjoyed every minute of it was enough to bring tears to many eyes that watched them. They were being brought into closer touch with the world of their voiced playmates; their partial isolation was being temporarily broken down. To each of them, that lecture was a big event.

Recipes For This Week

(By Betty Barclay)

GOLDEN ORANGE FROSTING

Grated rind 1 orange.
3 tablespoons orange juice.
1 teaspoon lemon juice.
Yolk of 1 egg.
Confectioners' sugar.

Mix grated orange rind with fruit juices and let stand 15 minutes. Strain into beaten egg yolks and add enough sifted confectioners' sugar to spread.

HAMBURGER EN CASSEROLE

2 lbs. of round steak ground
or
2 lbs. of lean hamburger.
2 large onions.
2 large peppers, green or red.
1 large lemon.
1 8 oz. bottle tomato catsup.
1/2 lb. or more of bacon according to taste.
Salt and pepper.

Butter your casserole dish or pan and lay about 1 1/2 inches of hamburger in bottom.
1 layer of one onion thinly sliced.
1 layer of one pepper thinly sliced.

Juice of half lemon.
Salt and pepper to taste.

Repeat until the meat is used, making the second layer of meat about one inch thick; this will give enough hamburger left for about 1/2 inch thick on very top. Pour a whole bottle (8 oz.) of catsup over and strips of bacon. Bake slowly or in modern oven for one hour and a quarter.

Early oil wells at Bakur were scooped out by hand.

Photograph shows Colonel Charles Lindbergh and his bride, formerly Miss Anne Morrow, daughter of D. W. Morrow, United States ambassador to Mexico, at Mitchell Field, L.I., where they witnessed the test flight in the Daniel Gutzendel safe-aircraft competition. This is their first appearance since their marriage on May 27. Col. Lindbergh is a trustee and consultant of the Daniel Gutzendel Fund for the promotion of aeronautics. Copyright, 1929, Pacific and Atlantic Photos, Inc.

Out Of Their Element

Eskimo Boys Cannot Stand Climate Of Eastern Canada.

Ben Ell, nine-year-old son of Chief John Ell, head of the Southampton Island Eskimos, and Sam Pudlutt, who have been endeavoring to learn the ways of civilization at Lakefield preparatory school, near Peterboro, Ont., have been forced to give up their studies there and hurry home on account of illness.

Ben and Sam soon became favorites at the Lakefield school where they have been for two years, but just before Christmas both were forced to relinquish their studies to face an ordeal of sickness, influenza, pneumonia, measles, tonsillitis and operations for mastoids and adenoids proved too grueling a test for little Eskimo constitutions and it has been decided to send them back to their northern home.

Evidently Not

In a small country town they were discussing the question of a brighter Sunday.

Various proposals were put forward, and some daring soul suggested a Pleading Sunday Afternoon.

A dignified old lady rose in the meeting and said: "There will be no pleasant Sunday afternoon where I am."

Rush For Homesteads

Homesteads are being filed on at the rate of 100 a week in the Edmonton Land Office.

To Study Oriental Trade

Graduate Of University Of B.C. Has Gone To Japan

Possessor of a \$1,000 scholarship for the study of Oriental North American trade conditions, Howard Nichols, Vancouver, 20-year-old University of British Columbia graduate, sailed recently for Yokohama. The scholarship is the first of three granted for the purpose of knowledge in Canada of Oriental trade by H. R. MacMillan, Vancouver lumber exporter. It provides \$1,000 for one year, free expenses and transportation between Vancouver and the Orient. It is open to all University of British Columbia students who prove themselves in the study of economics.

Hundred Million Sheep

Australia owns 100,000,000 sheep, which, although less than one-seventh of the world's flocks, produce annually nearly one-third of the world's wool. It is estimated that 80,000 families in Australia own sheep.

Figure It Out

"Which is the most valuable — a golden sovereign or a £1 note?"

"The note, because when you put it in your pocket, you can double it."

"Quite right. And when you take it out you find it increases."

If the city of Duluth, Minn., were moved to Nevada, the state would nearly double its population.

SUNDAY SCHOOL LESSON

JULY 14

EZEKIEL TEACHES PERSONAL RESPONSIBILITY

Golden Text: "Each one of us shall give account of himself to God." — Romans 14:12.
Lesson: Ezekiel 18:1-32; 33:1-20.
Devotional Reading: Psalm 125.

Explanations and Comments

The Prophet's Responsibility. Verses 7-9. Ezekiel is set as a watchman unto the house of Israel. He must hear the word of Jehovah and he must proclaim it; for as a watchman he is responsible for warning the people of the consequences of sin. He must know that God punishes wickedness, and he must warn the wicked from his way. If he fails in his duty of warning and the wicked man dies in his iniquity, the prophet is "blood guilty," accountable to God for that man. If, however, the prophet warns the man and the man fails to heed him, the prophet has "delivered his soul," he is free from guilt in the matter. His was the responsibility, not of producing obedience, but of uttering the warning. Recall how Paul declared to the elders of Ephesus that he shrank not from declaring unto them anything that was profitable, and taught them publicly, and from house to house, testifying both to Jews and to Greeks repentance toward God; wherefore he testified unto them that he was pure from the blood of all men for he had ceased not to admonish every one night and day with tears, Acts 20:17-31.

"No one of us is free from the danger of taking spiritual obligation too lightly. If we are Christ's disciples at all, there is committed to us the word of reconciliation." We are put in trust with a gospel which is intimately connected with the destinies of men. It is within our power to speak words which make an eternal difference to those who hear them; and upon our faithfulness may depend their opportunity of realizing the only way of escape and life. And yet how often are we content with something much less pious than the service of a true watchman!" — J. Stuart Holden.

Heating By Radio

Centralized Stoves No More Important Than Sending Music Around World.

While some, perhaps many, of the wonders prophesied for days to come may be far-fetched and foisted on a gullible public, all the amazing stirrings of the modern age were once in a similar case. Had anyone foretold the coming of radio not so long ago, ridicule would have been his portion. So the telephone was a miracle in its day, and the typewriter had to fight its way into universal use. Who could have foreseen the place the automobile was destined to occupy from its first examples or induced people to believe that white coal could be harnessed for the service of mankind. Now we are told that radio will bring light and power to our homes and industries and provide heat as well. Centralized stoves instead of central heating plants are no more impossible than sending music round the world without visible agency.

Just one stove for the entire city and that, raised 1,000 feet in the air, is the possibility announced by Paris, France. The scheme entails the establishment of wireless energy to be sent from the top of the Eiffel Tower. In each house there would be set up a machine, like, yet unlike, a radio, that would intercept the waves, transform them into heat and become a radiator to warm the rooms. The proposed waves would be of 400 to 500 coils in waves of two to three meters' length. All that is needed is to place on the receiving posts a filament that the wireless flow will raise to incandescence, and you will have your stove unit. Given enough such stoves, units, and wires, you have your heating or cooking stove minus coal, oil, gas or wired electricity.

Sale Of School Lands

Great Interest Shown In This Year's Auction Sales Held In West

Unprecedented interest was manifested in this year's auction sales of reserve school lands in Saskatchewan and Alberta. Attendance at the various points where sales were held was high, and reached 1,000 at some points. Many farmers acquired additional land adjoining their present holdings for the purpose of extending their operations, or to make provision for their sons. Many of the buyers of these lands were "new Canadians" who have prospered in western Canada.

In all, some 738,000 acres of land were sold for a total of \$10,000,000. Prices paid ranged all the way from \$8 to \$70 an acre. In Saskatchewan, 4,662 parcels were sold, the average price being \$12.51 per acre, and in Alberta 63 parcels the average price being \$15.53 per acre. Two of the heaviest sales were at Assiniboia, Sask., where \$1,400,000.00 was realized, and at Roseworth, Sask., where \$1,210,000.00 was taken.

Grandmother Says

"That when she was a wee, tiny baby and her mamma did not have enough milk to nurse her, she gave her Eagle Brand Milk, which made her strong and healthy — and now my mamma is giving me Eagle Brand, and I have gained over half a pound a week since I was three months old."

The high quality, uniformity and economy of Eagle Brand make it the first choice for cooking and table use.

If your baby is not gaining in weight as it should — if it cries or is fretty or restless — something must be the matter with it.

In this paper from time to time you will find an advertisement of Eagle Brand Milk; a food that has raised more healthy babies than all the prepared infant foods combined. Cut out the advertisement and mail it to The Borden Company, Limited, 140 St. Paul St. West, Montreal, and they will send you, free of charge, a very helpful baby welfare book containing authoritative feeding directions and a vast amount of useful information on the care of baby. Also ask for Baby Record, a diary of baby's progress.

How the jungle received the members of the society for the protection of animals — Campana de Gracia, Barcelona.

THE SPORTS MODE

A youthful interpretation in chartreuse green pleated silk crepe skirt, with same shade in blouse in novelty striped sheer wools. The shoulder bow of silk crepe is its sole trimming. It is easily made, as is noted in small views and one of the smartest ideas for sports. It is frequently made of georgette crepe, crepe satin, chiffon voile, chiffon, flat silk crepe, silk pique and men's silk shirting fabric. Style No. 249 is designed in sizes 16, 18, 20 years, 36, 38, 40 and 42 inches bust measure. Size 36 requires 2 1/2 yards of 36-inch material for separate skirt and 2 1/2 yards of 36-inch material for separate cami sole. Price 25 cents in stamps or coin (coin preferred).

PAID COUNCILLORS

Custom dies very hard. The whole spirit of municipal government—in British communities particularly, and those who have inherited similar institutions—voluntary service for civic purposes is the ruling principle. This comes down, of course, from the days when the Burgess took a distinct personal pride in his home town, frequently from generations who have been called upon to make great sacrifices to maintain the liberties the community enjoys.

Watching the trend of events, however, compels the recognition of the fact that a great change has swept over the world since it was necessary for the freemen of borough to assert their rights—by force of arms if necessary—and civic service today is a vastly different thing to what it used to be. It has assumed the character of a business and calls for the best business men of a community to control it properly.

In such circumstances the question must naturally arise as to the wisdom of depending entirely on voluntary business. To attend to the business of a large and growing municipality means the sacrifice of a good deal of time. It is usually accepted that the volunteer worker is one who has that time to spare. But that principle narrows the choice of councillors down to rather close limits and

may exclude some of the more desirable elements who cannot afford to neglect their own affairs to the extent necessary.

On these grounds, the policy of paying councillors can be justified, but it runs so close to the further step of handing over municipal matters to a paid manager that it is difficult to see how the former could avoid gradually merging into the latter. This matter of remuneration is being raised as a practical issue at Johannesburg and the progress of the matter should be watched with interest. The possibility of such a policy giving rise to a tribe of professional place-seekers has also to be allowed for.—The Municipal Journal, South Africa.

The hearse of the Crows' Nest Undertaking Company came to grief following the Ritchie funeral at Coleman on Friday evening last, when the driver lost control and was obliged to jump, leaving the hearse to proceed wildly to the railway tracks, where collision with a box car badly wrecked the engine and box. The hearse has been forwarded to Lethbridge for repairs.

An expedition, backed by Newfoundland business men, sailed recently from Montreal to commercialize the limestone deposits on the islands of Hamilton Inlet, Labrador. The ship will secure 30,000 tons for conversion into poultry feed by a New Hampshire firm.

Elise, daughter of Mr. and Mrs. William Peters, has returned home from Calgary, where for the past five or six months she has been taking a course at the Garbutt Business College. Miss Peters was very successful, winning a certificate of competency as well as being awarded silver and bronze medals.

Mr. and Mrs. James Coult, of Cranbrook, spent the early part of the week in town.

PHEASANTS ARE THRIVING

Sportsmen will be interested to learn that the pheasants imported last fall have been making good and that on the L. E. Dimsdale ranch two pheasant pens busily mothering their chicks may often be seen. Mr. Dimsdale is of the opinion that more nests are near, but so far he has not located them.—Pincher Creek Echo.

BIRTH CONTROL

The authorities in a small town in Newfoundland have adopted a system whereby a new baby is to be born every day of the year. Next!

Hillcrest is due to play at Michal on Saturday in the first game of the Bennett Shield football series. Home and home games have been arranged, the return game to be played at Hillcrest on Saturday, the 27th.

On Sunday next, the members of the Hillcrest Literary & Athletic Association, with their wives and children, will hold their annual picnic and sports at the McLean ranch, east of Hillcrest, commencing at 10 a.m.

Mr. and Mrs. P. C. Montalbetti and children, accompanied by the former's father, Mr. Joseph Montalbetti, are enjoying a week's vacation, motoring to various Alberta points.

Frank Bennett, youngest son of Mr. William Bennett, of the McEachern Hereford Ranch, Burnis, won first prize at the Calgary Stampede on Tuesday in the Canadian championship calf roping contest.

When "Val" and Bill Johnston approached Lee Lake the other day in the former's gasoline destroyer, two other animals moved off the road.

Evelyn Oliver, who has been studying at Sacred Heart Convent, Calgary, has been successful in passing the final grade of the Royal Academy piano examinations.

COWLEY HAPPENINGS

At present, Miss Phyllis Porter is employed as clerk with the Cowley Trading Co.

Mr. McDonald, of the Lacombe nursery, was in the district this week, placing orders.

Mr. McIsaac and Mr. Hille Swart left on Friday afternoon by motor for a camping trip in B.C.

Mr. Lloyd, who has been employed as teacher of the Todd Creek school, left on Friday night's train for Monana.

Mrs. George Porter and family journeyed to their ranch home at Black Mountain for the summer vacation.

Miss Hazel, who has been employed with Mrs. Christie for seven years, is going to Calgary, where she intends staying.

Mr. Black, who is manager of the Cowley Pool elevator, moved his family into the W. Twiston residence this early part of the week.

Mr. and Mrs. J. E. Ward, Mr. and Mrs. K. Berry, and Mr. and Mrs. D. Smith motored to Calgary on Sunday last to attend the Stampede.

Mr. and Mrs. W. L. Life and daughter, Miss Wyndolfe, of North Fork, motored to Pincher Creek for a week end visit with relatives and friends.

Harold Cleland, who has bought out George Ritchie's oil and draying business in town, has moved his family to the Ritchie residence, which was also included in the purchase.

Miss Gladys Brown, who was employed as teacher of the junior room here, has gone to her home east of Pincher Creek where she will spend her holidays with her parents.

A much-needed rain fell in this district on Saturday afternoon, coming as it did in the nick of time to save

the crops from a few weeks of drought. Most of the fall wheat here is looking in excellent condition.

A whist drive was held at the home of Mrs. Harry Gurn on Friday evening last, July 5th, under the auspices of the Women's Auxiliary. The prizes were won as follows: ladies' first, Miss Phyllis Porter; second, Miss Mary Kaye; gent's first, Mr. Lloyd; second, Harry Rogers.

Miss M. B. Daniels, representing The National Research Bureau, Winnipeg, was in town during the week, accompanied by her brother. Miss Daniels was a former pupil of the Hillcrest public school, where her father was employed as mine blacksmith.

Alberta stood highest among the provinces of Canada with a per capita loss of \$5.74 caused by fires during the year 1928, according to figures compiled by the Dominion Fire Commission. The total fire loss in the Dominion during the year is given at \$102,697,540.

Corp. Elmer McDougall, of the R.C.M.P. detachment at Regina, paid a flying visit on Tuesday with his brother, Mr. J. McDougall, and family. Corp. McDougall stopped off enroute to Banff on a holiday and was accompanied by Mr. and Mrs. Croft and daughter, the visit being the first meeting of the brothers in ten years.

Years ago a star was slain by an occult hand from the astral plane. He returned to haunt the players in this worldly farce. See "The Last Warning" at the Orpheum Theatre Friday and Saturday.

Misses Pearl and Margaret Madden, of Lundbreck, left Saturday morning for Vancouver, where they will visit their sister, Mrs. Sparrow.

Seventy applications for positions on the school staff have been received by the Pincher Creek board.

BLAIRMORE UNITED CHURCH
Rev. J. W. Smith, B.D., Pastor

Serve the church that the church may serve you.

SERVICES DURING JULY
10 a.m.—JUNIOR SCHOOL meets in the Church.

11 a.m.—PUBLIC WORSHIP. The Senior School will unite with the congregation at 11 a.m. for combined service. Rev. F. Antrobus, of McMaster University, Toronto, will be in charge. Just delay your drive or picnic an hour or two and begin the day in the House of God. You will enjoy the afternoon and evening by stream and lake all the more.

Afternoon School at 10 a.m. Evening Worship discontinued during the month.

VACATION SCHOOL.
Vacation School will be held during the first two weeks in August, opening on the 5th and closing the 16th; hours will be 9.15 to 12 noon daily. Any child over 4 and under 13, resident in Blairmore or Pincher, is eligible to attend. Attendance at any Sunday School is not a condition and the teaching is Christian, not denominational.

You'll yell, you'll roar, you'll shout, you'll scream with laughter, at those "Naughty Neighbors," at the Orpheum Monday and Tuesday.

J. S. D'Appolonia, of Coleman, has been awarded the contract for the carpenter and stucco work for a new school addition being built at Pincher Creek.

MARSHMALLOW RECIPES

Marshmallow Icing— $\frac{1}{2}$ cup white sugar, 3 tablespoons cold water, whites of 1 egg, 12 marshmallows (chopped). Place in double boiler over boiling water. Beat with egg-beater 7 minutes.

Marshmallow Cream—Dissolve 1 package lemon jelly powder in 1 pint boiling water; allow to cool, and when it begins to set add $\frac{1}{2}$ tin pineapple, sliced; 6 bananas, diced; 2 bananas, sliced, and 12 marshmallows, chopped. Place in mould and let set. Serve with whipped cream.

Marshmallow Filling—1 cup sugar, $\frac{1}{2}$ cup milk, $\frac{1}{2}$ pound marshmallows cut in small pieces, 2 $\frac{1}{2}$ tablespoons hot water; 1 teaspoon vanilla. Boil sugar and milk until soft ball stage is reached. Melt marshmallows in double boiler and add hot water; cook mixture until smooth, stirring continually while adding milk and sugar mixture. Beat until cool.

Smoking forests or smoking chimneys—
WHICH?

WE CAN'T HAVE BOTH

Over one-half of all Canada's industries depend on wood as a raw material. When the forests are destroyed mills must close down, railway earnings must suffer, trade must stagnate and prosperity must vanish.

Jock and Sandy

Jock met Sandy on the street and casually announced that he was going to send over a hen for his friend's Sunday dinner. A long time passed and the hen was not forthcoming. Finally the friend said: "Jock, what about the chookie ye were going to gi' me for dinner?" Jock groined in his memory: "Chookie! Oh, aye, I mind now. Weel, to speak the truth, yon chookie got better."

The pretty young kindergarten mistress had been telling her pupils all about the winds, their power, different effects, and so on.

"And, children," she went on enthusiastically, "as I came to school this morning on the top of the bus something softly came and kissed my cheek. What do you think it was?"

"The conductor!" cried the children, joyously.—Reynolds.

"If you want to go over big, you must sing louder."

"I'm singing as loud as I can."

"Well, be enthusiastic! Open your mouth and throw yourself into it." —Annapolis Log.

Attishoo!

A Scotchman and an American were boasting about their respective countries. The latter stated that in America there lived a woman who was so big that she started her breakfast in the morning and did not finish till midnight.

The Scotchman, net to be outdone, said, "Do you call that big? Why, in Scotland we have a woman so big that if she gets her feet damp in January she doesn't sneeze till July!"

Firestone TIRES

The One Hundred Percent

Lady Astor, like Bernard Shaw, has the habit of saying startling things that make people think, says the Winnipeg Tribune. In the recent election campaign in Great Britain she struck a responsive chord in many minds when she said:

"It is the 100 per cent. American and the out-and-out Englishman I fear. I think 100 per cent. citizens ought to be locked up. They are a danger to the world."

Everybody knows what a 100 per cent., or an out-and-out, is. He is to be found in more or less substantial numbers in every country, although his favorite stamping ground is the North American continent. The 100 per cent. may be distinguished by several well-known characteristics.

In the first place, he holds as a great moral principle the immoral doctrine embraced by the famous motto, "May my country be always right, but my country right or wrong." This naturally scales down into "my state (or province), my city, my ward, my party"—and not infrequently, "myself." In essence it is placing a nation, or a locality, or a group of persons associated together for some common cause, above every ethical or moral judgment of mankind, above the sense of right or wrong.

Another sign of the 100 per cent. is a steadfast belief that everything that is American, or Canadian, or English, or Italian, is right, because it is American, or Canadian, or English, or Italian. The logical consequences of such an obsession is that he cheapens his country's flag by dragging it in and flaunting it on every possible occasion.

The 100 per cent. is not all bad, of course. He merely fails to see that patriotism is not the cause but the result of a sound and honorable national life. He is the victim of current standardization of thought which manifests itself in slogans and headlines. Not everyone would want to go as far as Lady Astor and have him locked up. Nevertheless he is a danger because his enthusiasm is rooted mainly in a mass of intolerances. And intolerance, as Lady Astor implied, is one great obstacle to civilized social progress.

And in civilized social progress lies the hope for the future peace of the world. If the American, the Canadian, the Englishman, the Italian insist upon the acceptance of their particular national views, and intemperately refuse to see any good or virtue in the views of others, what hope can there be of the nations drawing closer together?

And if the 100 per cent. doctrine is sound and right, and the 100 per cent. is to have his way, what hope is there for the future of many nations of today? Take Canada as an example. If the 100 per cent. Easterner adheres rigidly to his views, declares he alone is right, but whether right or wrong, he will not budge from any position he has taken on fiscal or other questions, and the 100 per cent. Westerner adopts the same attitude, what will be the outcome of the Canadian Confederation?

Apply the same attitude of mind in matters of race, language, religion, and government in Canada, and in each of the provinces of Canada, becomes an impossibility. The 100 per cent. would wreck everything if he does not have his own way.

All history proves that intolerance has been the cause of the world's greatest sorrows, the underlying cause of its bloodiest wars. Intolerance of race, intolerance of national customs, intolerance of religion, intolerance of social conditions, the 100 per cent. in the ranks of employers and in trade unions, these are the real dangers in the world today as they were in the years that are past.

The 100 per cent. demagogue with a glib tongue and a reckless disregard for truth and fact by attracting the attention, playing upon the passions, prejudices and sentiment of those who are so swayed rather than guided by their intelligence, can undo the work of generations of statesmen, and render difficult and oftentimes impossible the work of the true reformer. The man who boasts that he is 100 per cent. is a danger to the world as he is merely expressing the fact that he is intolerant in his views and narrow in his vision and conception of life. He may be sincere, but his sincerity is the outcome of his intolerance, and his intolerance has its foundation in ignorance and a prejudiced mind. As such he is a national danger.

To Test Air Television

Monophone Has Been Especially Constructed To Try Out Invention. Flight tests will soon be made of television apparatus, calculated by its inventor, C. Francis Jenkins, Washington physicist, to reproduce conditions as seen from an airplane, on a screen miles away.

Moving panoramas of countryside—in wartime instantaneous recording at headquarters of observations made by planes back of the enemy lines—as broadcast by the "aerial television eye" will soon be a scientific reality, he said.

Successful experiments, with the

Cuts and Burns

Minard's soothes inflammation, removes all poison and heals quickly.

W. N. U. 1798

new process have already been conducted with ground models from a fixed base, he announced, and a Stinson junior cabin monoplane had been specially constructed for practical test purposes.

Will Increase Empire's Trade

U.S. Tariff Likely To Divert Trade To British Dominions

Increased United States tariff against Canadian products will divert Canada's trade more and more to the other Dominions of the British Empire, believes Norton Francis, president of the Canterbury, New Zealand, chamber of commerce, and prominent business man, who is visiting Canada and the United States for the purpose of studying relations between the farmer and city industry on this continent.

In an interview at Winnipeg, Mr. Francis said he does not think Canada can meet the tariff situation by further raising her own tariff scale, but should concentrate on increasing her manufacturing and inter-empire trade.

The moisture evaporated from a single white oak in a day has been estimated to be 150 gallons of water.

Can Measure Laughter

Machine Determines Whether Comedy Piece Is Successful Or Failure

"John James, comedian, Lafofograph 88," may be the fourth of kind used by entertainers in the future, for a new apparatus has been invented to register the exact "strength" of the laughs aroused by a comic piece in a theatre or concert hall. It registers the truth and nothing but the truth. The machine will presumably have a figure to denote absolute efficiency, and should a musical comedy fail to come up to scratch it will not longer be possible to suspect that the failure was due to the critics. Also the critic's work will be made easier. Instead of praising an author's wit, or discussing a comedian's qualities, it will be necessary only to say at the end: "Lafofograph 100, or 50, or 0," as the case may be. After a first night the public will be able to say the registered rise and fall of the needle—how it began at "titter," rose to the middle spheres of "chuckle" and "laugh," leapt to the higher "outburst" or "scream," or reached the supreme heights of "screach."

PAINS IN THE BACK

These Are Usually Due To A Weakened Condition Of The Blood

The muscles of the back are constantly under heavy strain, and have to do little rest throughout the day. They are therefore in need of all the nourishment and strength that plenty of pure red blood can give them. Unless they have this help, you will have backache and continue to have it.

Backache seldom or never means kidney trouble. It is nothing more than the tired, worn-out muscles of the back showing their exhaustion because of the lack of good, pure blood. The one generally recognized efficient blood builder is Dr. Williams' Pink Pills. When the blood has been improved through the use of this medicine, backache disappears. Mrs. F. Fairbairn, Essex, Ont., tells what Dr. Williams' Pink Pills did for her in a case of this kind. She says: "I suffered for nearly three years with a weak back. At times the pains were so bad that I had to walk half doubled over. I had tried several doctors with very little benefit. A friend urged me to try Dr. Williams' Pink Pills. I did so, and oh, the joy of once more being able to walk straight and without suffering intense pain. After using two boxes there was no doubt they were helping me. I used eight boxes and all have not since had a sign of the trouble. I can do all my housework and not feel tired and worn-out as formerly. For all this I thank Dr. Williams' Pink Pills. If your dealer does not keep these pills you can get them by mail at 50c a box from Dr. Williams' Medicine Co., Brockville, Ont."

Free Advertising

The firm of Golomon and O'Gullivan had plots for sale in a suburb.

O'Gullivan, a young enthusiastic, was writing the advertisement. He urged impending purchasers to seize the passing moment.

"Napoleon," he wrote, "not only met opportunity; he created it!"

Mr. Golomon read this line in the advertisement slowly and carefully. "This fellow Napoleon," he said, "what's the use of advertising him with our money."

Powerful Medicine.—The healing properties in six essential oils are concentrated in every bottle of Dr. Thomas' Electric Oil, forming one of the most beneficial liniments ever offered to the use of man. Many can testify to its power in almost all pain, and many more can certify that they owe their health to it. Its wonderful power is not expressed by the small price at which it sells.

Agricultural Machinery Sales.—Agricultural machinery sales in Saskatchewan, which approximate \$50,000,000 annually, are increasing each year, owing to the volume of wheat and other grain produced, according to a departmental report.

Her Little Boy Was Very Ill With Summer Complaint

Mrs. Ray Fisher, Lebrat, Sask., writes: "For over a month, last summer, my little boy was suffering from summer complaint. He got so bad there began to be traces of blood in his stool, and anything he ate would not stay on his stomach very long. He became so weak he could not stand up. A neighbor recommended

"I discovered my little boy was so ill, I sent for a doctor, but not expecting any more benefit than from the many other medicines I had used, but to my surprise, I noticed a change after he had taken a few doses, and before the bottle was half used he was the same happy, healthy boy he was before he was half used."

Put up only by The T. Milburn Co., Ltd., Toronto, Ont.

Important Move Made By Labor Government

Would Have Dominion's Assent On Signing Of Optional Clause Of World Court Statutes

Important negotiations affecting Empire affairs, are reported to have been initiated by the Labor Government of Great Britain. It has communicated with all the Dominions in an effort to gain agreement on the signing of the optional clause of the world court statutes, under which questions of international law would be submitted to the permanent court of international justice, at the Hague.

The Labor newspaper, the Daily Herald, said also that the Labor Government has informed the Dominion governments that it proposes to resume diplomatic relations with Russia.

The world court matter requires agreement of all the Dominions, and it is expected this can be secured without much trouble. Australia, hitherto, was probably the only Dominion reluctant to sign the optional clause, and it is understood this reluctance has now been removed to a great extent. In any event, Premier Ramsay MacDonald is hopeful of being able to sign complete Empire agreement on joining the world court when he visits the League Assembly at Geneva, in September.

So far as Russia is concerned, the Labor Government is already pledged to renewal of diplomatic negotiations, this being a necessary and important step towards the desired increase in British trade with the Soviet Union.

Search For Oil In Manitoba

Western Oil Fields Are Gradually Extending Eastward

The search for oil in the western provinces is gradually extending into Manitoba, and announcement is made of the formation of a syndicate of eastern capitalists to drill in the Ochre River field. The new organization, which is called the Carter Oil Syndicate, has taken over the holdings of 1,300 acres south of Ochre River.

Minard's Liniment For Earache.

Official Criticism

The Movie Manager—Good morning, ma'am. I asked you to call because I wanted your opinion on some of my features.

The New Censor—Well, to begin with, your forecast is too low, your legs are not matinee, your nose is too big and bulbous, your mouth is too large and flabby, and you're little or no chin. Otherwise they will do very well. Is that all?

Drives Asthma Like Magic.—The immediate help from Dr. J. D. Kellogg's Asthma Remedy seems like magic. Nevertheless it is only a natural remedy used in a natural way. The smoke or vapor, reaching the most remote passages of the affected tubes, brushes aside the trouble and opens a way for fresh air to enter. It is sold by dealers throughout the land.

Large Purchase Of Sheep.—The 10,000 sheep for the Manitoba Livestock Credit Company have been purchased. These consist of 7,000 Ramboulllets and 3,000 Oxford crosses. Representative boards are being established at the larger country points in the province.

No man or woman should hobble painfully about because of corns when so certain a relief is at hand as Holloway's Corn Remover.

Oldest Wine In World

The oldest wine in the world is on exhibition at Spyer, Germany. It is Roman wine, recently dug up, and is estimated to be 1,600 years old. It is partly solidified, for Romans put honey in their wine.

Keep Minard's Liniment in the Medicine Chest.

Famous Detective Retires

Scotland Yard Officer Was Successful In Solving Many Celebrated Cases

Retirement of Frederick Wensley, 64, as chief of the intelligence division of Scotland Yard, has brought to an end a career which began in the Limehouse district and resulted in the solution of numerous murder and other mysteries. He came to know every nook in Chinatown and the East End, the anarchists' haunts and dens of iniquity. With hawklike features, piercing eyes and bushy eyebrows, Wensley resembles Lord Reading, and really looks the part that novelists have assigned the detective. In real life his work often shamed the amateur exploits of his prototypes in fiction. Most of his murder mysteries were solved as he sat back in a big armchair in Scotland Yard building. He would sit for hours staring at the river while studying every angle of the case, and when he left that chair things began to happen.

Back in 1888, Wensley took part in the famous Whitechapel hunt for "Jack the Ripper," who murdered many young girls. He shared in the Sydney Street siege when a group of murderers barricaded themselves in a house and fought a battalion of Scots Guards.

One of his most famous exploits was the case of the mystery house when he found that Maitly, the tailor, had been living for weeks behind barricaded doors, alone with the bodies of the women he had killed.

One of his most astute solutions was in the murder of Madame Gerald, which he solved with only two clues to work on, a laundry mark and a piece of paper with the cryptic words "Hodie Belgium."

Most of his cases were sordid murders which were not sensational but which required much skill to solve.

Excellent For Croupy Children.—When a child is suffering with croup it is a good plan to use Dr. Thomas' Electric Oil. It reduces the inflammation and loosens the phlegm giving speedy relief to the little sufferer. It is equally reliable for sore throat and chest, earache, rheumatic pains, cuts, bruises and sprains. Dr. Thomas' Electric Oil is regarded by many thousands as an indispensable of the family medicine chest.

Britain's Oldest House

The oldest inhabited residence in the kingdom is said to be Dunvegan Castle, in the Isle of Skye. Part of it dates from the ninth century, or a couple of hundred years before the conquest of England by William the Norman.

The cheapness of Mother Graves' Worm Exterminator puts it within reach of all, and it can be got at any drugist's.

Could Quality

"I won't disguise the fact that this job is a tough proposition. The man who gets it will have some ugly customers to deal with."

Then it will suit me down to the ground. I've had lots of experience with ugly customers.

"Where?"

"In a beauty shop."

It May Be Urgent

When your Children Cry for It

Castoria is a comfort when Baby is fretful. No sooner taken than the little one is at ease. If restless, a few drops soon bring contentment. No harm done, for Castoria is a baby remedy, meant for babies. Perfectly safe to give the youngest infant; you have the doctor's word for that! It is a vegetable product and you could use it every day. But it's in an emergency that Castoria means most. Some night when constipation may be relieved—or colic pains—or other suffering. Never be without it: some mothers keep an extra bottle, unopened, to make sure there will always be Castoria in the house. It is effective for older children, too; read the book that comes with it.

Fletcher's CASTORIA

Take Air Trip Alone

English Farmer, Sixty-Six, Flees To Holland and Back

Richardson, 67, Britain's so-called oldest citizen, made a lone flight from Norwich to Rotterdam, Holland, and back.

"He scorned the dismaying pleas of his fellow airman, saying: 'Don't talk to me about nerves! It doesn't take much courage to fly over the sea.'"

Richardson learned to fly two years ago because, having given up farming, he had nothing else to do."

HUNTER-MARTIN & CO., REGINA, SASK.

LEVEL CROSSING ELIMINATION IS BEING PLANNED

Ottawa.—The Board of Railway Commissioners, a road department of the Provincial governments throughout Canada and the railways of Canada are making a joint survey of the level crossings situation with a view to a definite and comprehensive program of level crossing elimination.

The provincial officials are now engaged in classifying the crossings from the point of view of the degree of danger and the nature of the protection needed. When this has been done, the board, the provinces and the railways will confer and decide where the greatest urgencies lie. The most dangerous crossings will be eliminated or protected first.

The program to be drawn up will require from half a million to a million dollars a year from federal government, which means an expenditure of two to three millions annually. The grade crossing fund which has been replenished at the rate of \$200,000 a year for many years is proving insufficient since the campaign of the last few years inaugurated by the Hon. Charles Dunning, minister of railways. At present it is only about \$100,000 and Mr. Dunning will probably ask Parliament next session to increase the \$200,000 to the larger amount. Under the provisions of the Federal government fund, which is administered by the Railway Board will pay up to 40 per cent. of the cost of any crossing elimination and protection.

Father Sought By Radio

Message Sent To Police Officer In Far North To Advise Him Of Son's Illness

Ottawa.—A sick child in a hospital here is waiting reply from his father at the lonely Royal Canadian Mounted Police post at Chesterfield Inlet on Hudson Bay, to a message broadcast over the Canadian National Railways radio chain. The message was to advise Staff Sergeant M. A. Joyce, that his 14-year-old son, Scott, is seriously ill here, and asking him to get in touch with Ottawa by radio if he can get to a sending station.

World's Population

Believe Population Will Be Doubled In Next 150 Years

Chicago, Ill.—Mankind probably will require at least 150 years to double the world's present estimated population, which is present 1,700,000,000 and 1,800,000,000. If fertility and mortality remain as at present, a mere doubling of the world's population however, will produce a striking change in the race composition, with a greatly increased percentage of Slavs. The population of North America, Western and Northern Europe, and Australia even now are no longer reproducing themselves.

Tourists Play Safe

Windsor, Ont.—"Don't shoot. I have no house in this car." Banners bearing this inscription were posted on the windshields and rear windows of automobiles reaching here from Chicago and other Illinois centres. It evidently constitutes a novel manner of protesting against the alleged promiscuous shooting of "bootleg" suspects by American state police.

Rumor Is Denied

Ottawa.—A rumor that Canada has made an offer to the Newfoundland government for the purchase of Labrador was given official denial here. "In no way is it true," said Premier King, when the matter was drawn to his attention. The rumor indicated that the price offered by the Dominion government was one hundred million dollars.

Mon. Heenan Will Go To Edmonton.—Hon. Peter Heenan, federal minister of labor, will be in Edmonton shortly to sign in behalf of the Dominion government the necessary documents and agreements in connection with the old age pensions scheme, about to go into operation under the joint auspices of the two governments.

Non-Party Delegation

London, England.—With the decision to send a non-party delegation to the league of nations assembly in September it has been known that Viscount Cecil would probably be one of the delegates.

W. M. U. 1798

State Control Of Radio

Royal Radio Commission Makes Important Recommendations

Ottawa.—Government control of all broadcasting stations, elimination of advertising from the programs and that listeners pay the upkeep by license were advocated before the Royal Radio Commission at the final session here by the All-Canada Congress of Labor and the Canadian Legion of the British Empire Service League.

The Canadian Congress representatives also recommended that the present commission be continued or a similar organization be established vested with complete administrative control of radio broadcasting.

The Canadian Legion advocated a broadcasting organization that would develop imperial patriotism and Canadian culture. Canadians said the Legion briefly were being overwhelmed with foreign programs charged with propaganda.

The commission will at once begin the preparation of its report. It will probably be available about the end of the month.

Canada May Consider

Relations With Russia

Communications From British Government Have Been Received At Ottawa

Ottawa.—Certain communications of a "general and preliminary nature," regarding the signing of the optional clause, and also bearing on resumption of diplomatic relations with Russia, have been received by the government of Canada from the British government, that was the extent of the information given out here with respect to these matters which are accorded specific mention in the King's speech at the opening of the parliament.

Just what position the Canadian government is taking on the question of resuming diplomatic relations with Russia has not been stated. It is considered likely, however, that Canada will support any such move.

Two Injured In Explosion

Faulty Water Jacket Burst In Jewish Orphanage, Winnipeg

Winnipeg.—A violent explosion, which shook buildings within a half a block radius, caused injury to two persons and damage to the basement of the Jewish Orphanage on Matheson Avenue, north Winnipeg. Many children are cared for at the orphanage, but all escaped injury.

While a city water works employee was attempting to repair a faulty water jacket in the basement it exploded. The employee, George Bennett, was painfully hurt, while Mrs. A. Osowsky, wife of the orphanage superintendent, suffered from a broken arm and shock.

It was first reported that fire had followed the explosion, but this was erroneous, though firemen from central and north stations were called out and aided in bringing the injured from the building.

To Cross Atlantic

In Small Vessel

Five Cleveland Men Believe They Can Make Return Trip

Cleveland, Ohio.—The little power boat "Karl," manned by five men who built it out from here on an adventurous attempt to cross the Atlantic ocean.

The Karl, captained by Joe Leppich, 31, a German Great War veteran, took on 500 gallons of gasoline and enough canned goods and water to last three months. Captain Leppich intends to skipper her down the St. Lawrence river and then across the sea to Hamburg, Germany. "We will be in Hamburg in ten days. The Karl will make the trip there and back," said the captain.

New Chancellor Of Queen's

Kingston, Ont.—James Armstrong Richardson, of Winnipeg, head of the firm of James Richardson and Sons, was chosen as the new chancellor of Queen's University to succeed Sir Robert L. Borden, who resigned several weeks ago. Mr. Richardson's name was the only one to be placed in nomination and he was unanimously chosen for the post.

May Spend Winter In Africa

London, England.—The Evening News says it understands the King is considering proposals to spend part of next winter in one of the British dominions. South Africa, about which confidential inquiries already have been made, is considered the most suitable.

CROP CONDITIONS ARE VARIABLE REPORT REVEALS

Ottawa.—The telegraphic crops report issued by the Dominion bureau of statistics showed a wide range of conditions across the country. Crop prospects continue satisfactory over Southern and Northern Alberta. Warm weather with plenty of rain is needed in Saskatchewan and Manitoba. Fall wheat is excellent in Ontario. Scarcity of rain also is reported from Nova Scotia. The largest strawberry crop is expected in the history of British Columbia. Favorable reports are to hand from New Brunswick and Prince Edward Island.

Reports by provinces for the end of June:

Manitoba.—Manitoba department of agriculture: Crops started late on account of cool spring. Light rains last fall left little soil moisture this spring. Germination fair. Slight setback to new fields by frost on June 12. Rainfall scattered and variable. Need heavy general rain over province. Prospects fair.

Saskatchewan.—Saskatchewan department of agriculture: Growth was retarded in June by cool weather and lack of moisture and crops are generally behind the average. Although moisture conditions were improved toward the end of the month by rain, warm weather with plenty of rain, especially in the southern districts will be needed in July. In the Swift Current district wheat is week later than the average. Moisture supply varies widely. Will need good rains during next three weeks to make even fair crop.

Alberta.—Alberta department of agriculture: Crop prospects continue satisfactory over southern and northern sections of Alberta. Yield greatly reduced over central area but condition of coarse grains and feed improved by rains during past week. Fall wheat very satisfactory in south. Good crop alfalfa ready for first cutting. Livestock condition good. Dairy production increasing with improved pastures.

Sugar-beet crop generally good.

British Columbia.—British Columbia department of agriculture: Weather during June has been cool with frequent showers which have generally benefited crops.

Grain crops making rapid growth and appear to be healthy and strong. Haying is general, but due to the cold backward spring the prospects are that the crop will be light. Root crops and vegetables are in splendid condition and making good growth. Possibly the largest strawberry crop in the history of the province is being harvested, but prices are lower than last year. Raspberries and loganberries will yield approximately the same as last year. The yield of apples and other tree fruits will be about 25 per cent. less than last year.

PARLIAMENTARY SECRETARY

Miss Susan Lawrence has been selected as parliamentary secretary to the British minister of health by Premier Ramsay MacDonald, according to the list of appointments to the junior cabinet posts.

Gold Rush Started

Report Of Strike In Northern Saskatchewan Causes Excitement

Big River, Sask.—The placer gold and platinum strike about 300 miles north of Big River is causing considerable excitement at this point. About 100 men have left here, and over 400 from other points have gone to the scene of the new find. A number of parties are now outfitting at this point and will leave by barge and capoes this week.

The principal find is reported at Frobiisher Lake. An old prospector who just arrived here from the scene of the strike to secure supplies reports that when he left over 500 claims had been staked around Frobiisher and Birch Lakes.

The route to the new placer field is by water, the entire distance being without portages, via Big River, Lake La Crosse, Lake Deep River, Clear or Churchill Lake. All kinds of reports are coming in as to the richness of the new finds, one report stating that \$17 was washed from one shovel of dirt.

Envoy To Japan

Hon. Herbert Marler Will Deliver Several Addresses In West

Ottawa.—Placed at which Hon. Herbert Marler, Canadian minister designate to Japan, will speak on his trip west from Montreal on July 14, have been announced here.

On his way to British Columbia, Mr. Marler will speak at Toronto, Oshawa, Hamilton and Fort William, Winnipeg, Regina, Calgary and Jasper Park. In British Columbia where he will spend most of his time before sailing on August 29, he will speak at Vernon, Nanaimo, Duncan, Port Alberni, Penticton, Kootenay Landing, Kimberley, Windermere, Kelowna, Sicamous and Victoria.

Discovers Liquor Cache

Aeroplane Flows Up 20 Barrels Of Rum With Tall Skid

Sydney, N.S.—Plowing up 20 barrels of rum with the tall skid of his plane was the unique experience of Major-General J. H. MacBrien, when engine trouble drove him into a forced landing on a farm near here. The cache was neatly hidden under sticks covered with sod, and had the moth dropped a whole lot of the pit instead of neatly straddling it, the results might have been serious for the pilot and his guest, Dr. Freeman O'Neil.

Prince Sails For Home

Prince Henry Given Enthusiastic Send-Off At Quebec

Quebec, Que.—Prince Henry, Duke of Gloucester, concluded a month's visit to Canada, when he sailed from this port on the "Empress of Australia" bound for England. A flag draped aloft and the presence of the Governor-General, Lord Willington, and Lady Willington on the dock heralded the Prince's departure, while citizens of the ancient capital turned out in large numbers and gave the King's fourth son an enthusiastic send-off.

PLAN TO SOLVE LABOR PROBLEMS IN GREAT BRITAIN

London, England.—In debate on the address in reply to the speech from the Throne, Right Hon. J. H. Thomas, Lord Privy Seal and minister of employment in parliament outlined the government plans for reducing the volume of unemployment in Great Britain.

Schemes must not be considered with a view merely to giving work but also from the standpoint of stimulating trade at home and abroad, he declared. "What we import we should make for ourselves," he asserted and cheered from the opposition benches.

Mr. Thomas continued that the railways imported wooden track sleepers when examination had shown that only technical difficulties prevented them from using steel sleepers which could be made in Britain.

Road schemes costing \$187,500,000 and providing work for five or six years would be speeded up, Mr. Thomas said, adding that the government's contribution would be paid out of the road fund.

Arrangements would be made for the immediate re-construction of the Waterloo Bridge on which depended the great Charing Cross bridge scheme which would involve expenditure of \$55,000,000. Other schemes to be submitted to the railway companies were for the electrification of the Great Eastern Railway suburban lines running out of Liverpool Street station tube extensions, improvements in docks and harbors, and a freight railroad around outer London to avoid cross-London traffic.

The natural resources of the country would be developed, including land drainage, forestation and fisheries.

Mr. Thomas declared he was seriously considering a proposal to make Scotland more attractive and thereby enable "our American cousins to see the thrift of the Scots," a statement that caused laughter.

Mr. J. H. Thomas announced he was going to Canada when Parliament rises at the end of the present month to discuss with the Canadian Government the subject of British migration to Canada.

The minister stressed that in any discussion of migration with the Dominion, nothing would do more harm than the suggestion that Britain wanted to solve her unemployment problem at their expense.

"They will resent it and resent it bitterly," he said. "I believe migration is a problem that has to be negotiated on the spot. It is something which has to be discussed in all its bearings, because anyone who has visited Canada and knows it as I know it, knows perfectly well the remarkable change from an agricultural to an industrial population that is taking place there."

"Hitherto our migration schemes have been based on the assumption that agriculturists alone were wanted. That is not true today. Equally, labor there has safeguarded its position by saying 'no, we are not going to have people forced on us to lower and break down our standards.'"

"I propose to visit Canada myself immediately the House rises to discuss the whole problem."

VISCOUNT CECIL ON DELEGATION TO GENEVA

London, England.—Cheers from the Labor benches greeted the announcement in the House of Commons of the appointment of Viscount Cecil again to represent Great Britain at the Preparatory Disarmament Commission of the League of Nations and to attend the forthcoming assembly of the league.

The league assembly delegation also will include the following: Right Hon. Ramsay MacDonald, prime minister.

Right Hon. Arthur Henderson, secretary for foreign affairs.

Right Hon. Wm. Graham, president of the Board of Trade, Mr. M. A. Hamilton, Labor M.P., Blackburn.

Helen Maria Swanswick, speaker, lecturer and publisher.

Viscount Cecil, who was under-secretary of state for foreign affairs and minister of blockade in the wartime coalition government, and later became Lord Privy Seal in the Baldwin Conservative government in 1923 and 1924, has had considerable experience at Geneva as a British spokesman. He resigned from the disarmament delegation of the British government shortly after the collapse of the 1919-20 naval conference at Geneva in 1927.

A protest was raised from the Conservative benches after Mr. Henderson had announced the delegation. The Conservative members said it was the first occasion, when with the "doubtful exception of Viscount Cecil," the British representation was entirely made up of representatives of one party.

Mr. Henderson claimed, in reply, that by Viscount Cecil's inclusion, he had fulfilled the undertaking to follow the precedent set in 1924 when the delegation was not strictly of a party basis.

Airmen Have Narrow Escape

Privately Owned Plane Made Poor Landing Near Melfort

Melfort, Sask.—Two occupants of a privately owned aeroplane narrowly escaped injury when their machine made a poor landing on the shores of Windsor Lake, a few miles south of here. The plane was seriously damaged. In attempting to land, the plane skimmed over the roof of a house, barely cleared a grove of trees and struck the ground with the right wing flat. R. Leadbetter and O. P. Brownfield extricated themselves from the part-work without difficulty.

Killed By Artillery Shells

Two Accidents Cause Death Of Five In Poland

Warsaw.—Two accidents involving heavy artillery shells killed five persons and injured a number of others in Poland. In one case two country boys found a dud on a Russian-Lithuanian battle front near the village of Luck. They took it home, where it exploded, killing a family of four and wrecking the home. The other accident occurred near Cracow, where, in artillery practice, a shell landed in a group of military observers, killing one and injuring several others.

Opposing Higher Tariff

Washington.—The administration is bringing pressure to bear upon senators and congressmen to prevent increases in tariff duties which would be detrimental to United States foreign trade, well informed circles here believe. It is understood that Canadian trade is the particular concern of the administration.

Injuries Proved Fatal

Los Angeles.—Gladya Brockwell, motion picture actress, died of injuries received in an automobile accident. Her physician said death was due to peritonitis which developed as the result of internal injuries.

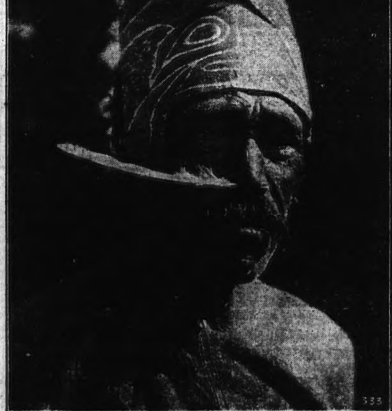

Dominion Rifle Meet

The annual Dominion Rifle Association meet will be held this year from August 12 to 17. It was announced recently. The meet will be held at the Connought Ranges, Ottawa.

Favors Arms Cut

Tokio.—Admiral Hyo Akarada, minister of naval affairs in the new Meisato cabinet, in an interview, pledged support to further limitation of naval armaments.

In England 2,500 automobiles are being delivered to new owners every week.

An Old-Time Canadian

He is a member of the Kwakwaka'wakw tribe of West Coast Indians and this is the regalia in which he appeared when his tribe welcomed the Governor-General on his recent trip on Canadian Pacific steamship "Princess Norah," along the lands and shores of Vancouver.

The quilt through the nose is more reminiscent of the West Coast of Africa than the West Coast of Canada, but it shows that strange customs and costumes are to be found still in the Dominion.
